### LIVE ART AS AN “ART DE VIVRE”

Since 1986, we have developed our expertise in a very special field: cultural tourism.

Our initial ambition is to live art as an « art de vivre », to lead participants by their hand on our trips and tell them a story: the story of a place, its population, its architecture and its culture in the broadest sense.

Our team of professionals works on demand, adapting and creating tours and tailor-made programs.

Cultural tourism, special events and incentives, marketing and communication to be integrated in your seminar or congress: from the guided tour to your cultural event, Itinéraires answers promptly in (almost) every language. Each proposal is adaptable to your wishes and the reality of your timing and objective.

## Our Vision

Brussels and the ninth art, a perfect mix between humour, fantasy, culture and history. The Smurfs, TinTin, Lucky Luke, XIII and many more protagonists of comic book adventures have now their place on the walls of the Belgian capital.

Tributes to the heroes of comics, as well as instruments of social and cultural identity, the comic strip frescoes will accompany you in your discovery of the historical heart of Brussels.

You will find here our proposals on the comics them: from the a classic guided tour completed by the visit of the Moof Comics Museum or the Belgian Comic Strip Center (CBBD) to the teambuilding activity such as a comic book rally or our city game “The search for Victor Sackville”.
